About me

HI THIS IS RAHUL KASBE

I'm a passionate web developer with a keen interest in creating responsive and user-friendly websites. My goal is to leverage my skills to build innovative web solutions that make a positive impact.
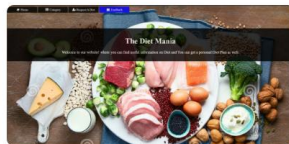

Details

Projects

Smart Arduino Switch Board For Home Automation

4-Way Control for the household appliances for better & reliable control. Smart Touch Screen, Bluetooth, Voice Command & Motion Sensor.

View Project

Automatic timetable Generation using Django

Time Table generator was created using Genetic Algorithm based on principles of natural selection & evolution.

View Project

Diet Mania (Website)

It is a website which provides personalized diet plans based on user's BMI which was featured calculated in the website's one of the page itself.

used for the website was HTML, CSS, JS for the design and working of the site & php for the users data profile
